The diagram illustrates a 3D hexagonal lattice structure. It consists of several layers of spheres. The top layer is a single row of 10 blue spheres. Below it is a second layer of 9 blue spheres, and a third layer of 8 blue spheres. The fourth layer consists of 7 spheres, with the first 4 being blue and the last 3 being red. Below this is a fifth layer of 6 blue spheres, followed by a sixth layer of 5 blue spheres. The seventh layer is a single row of 4 blue spheres. The bottom layer consists of two rows of 4 blue spheres each. The red spheres are located in the fourth layer, forming a small cluster.
